

## Solve Your Communication Problems With Custom Solutions From TeleVoIPs

TeleVoIPs saves companies time, money, and stress with custom VoIP solutions designed to deliver dependable and comprehensive communications. See how we put our solutions to work below:

The Problem	Our Solution
<p>Traditional phone systems lack flexibility – and usually include unnecessary add-on services that increase cost.</p> 	<p>Our VoIP systems can be customized so that you pay for only what you need. All it takes to work from anywhere is your computer and mobile phone – or add a desk phone for even more features.</p> 
<p>Old-school phone systems can be unreliable. If your business misses a call, you stand to lose revenue since 85% of people whose calls go unanswered by a business don't call back.<sup>1</sup></p> 	<p>Our VoIP phones ensure you never miss a call – even if there are network glitches or your agents are unavailable. Our system leverages auto-attendants and IVR features to take calls after-hours or when lines are busy.</p> 
<p>Traditional business phone systems are expensive to set up and maintain.</p> 	<p>Our VoIP systems don't require infrastructure investments, which saves businesses up to 90% on upfront costs.<sup>2</sup> Plus, maintenance is handled by TeleVoIPs, saving you even more money in the long run.</p> 
<p>Traditional phone systems lack the scalability needed to keep up with your growing business.</p> 	<p>TeleVoIPs offers flexible systems that grow alongside your business with fast, easy, and cost-effective scaling.</p> 
<p>Traditional phone systems lack integration, requiring several apps to communicate and resulting in frustrated, unproductive teams.</p> 	<p>Our all-in-one VoIP systems deliver comprehensive communications that foster collaboration and eliminate complications.</p>
