teleVoIPs[®]
Business Phone Solutions

www.televoips.com

Take the functionality of your desk phone wherever you go!

A Better Remote-User Experience

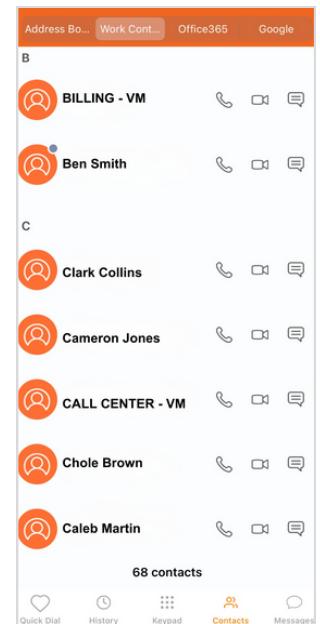

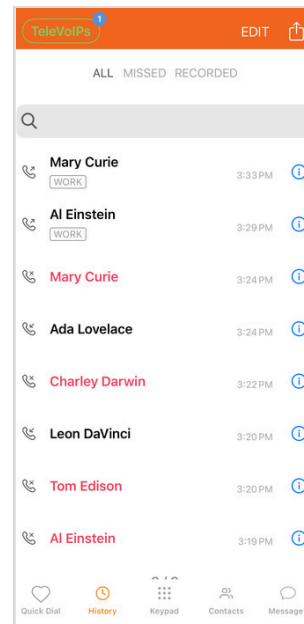

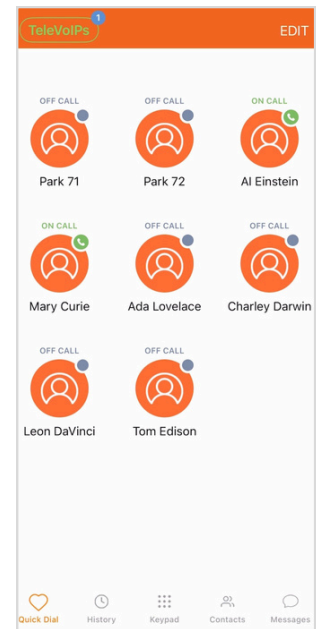

- Directly link a desk extension to a cell phone so both ring simultaneously.
- Park and transfer calls.
- Listen to voicemail messages
- Same features as your desk phones like set to "Do Not Disturb."

Multi-Location Integration

- Dial out from your office phone number.
- Speed dial anyone in your network.
- See who is on a call and who is available with presence and BLF.
- Access a fully integrated contact list and your call history.

Professional Appearance

- Clients will only see your business number (never your personal cell).
- Call out from an appropriate area code and out bound caller ID.
- Send and receive SMS and MMS text messages.
